

# LRLink optical module

This article will detail how to achieve a comprehensive upgrade of your home network at the lowest cost with the LRES1670PT-RJ45 10G network card.

For all product specifications (product manuals) inquiries or downloads, please click below for details.

LRXP8510-X3ATL (10/1G) 1/10Gb/s SFP+ LR 20 KM Optical Transceiver Module LRXP1310-20ATL (10/1G) 1G/10G SFP+ Short Wavelength (850nm) Optical Transceiver Module LRTP8525-X1ATL ...

This article takes an AI inference platform upgrade project of an Internet enterprise as an example to demonstrate the practical application of the LRSV9501-2E PCIe 5.0 Retimer expansion card in AI ...

LR-LINK LRHQ851X-X1ATM 100G QSFP28 multimode ethernet fiber optic module has 4 high-speed full-duplex channels, which can provide 4 independent sending and receiving channels, each with a ...

LR-LINK has RAID array cards that support dual or four hard drive expansions. A single card can carry up to 16TB of high-speed NVMe RAID storage, providing nearly 7GB/s data reading bandwidth and ...

As a small pluggable optical transceiver module, LRTP8525-X1ATL complies with the SFF-8472 standard and implements digital diagnostic functions through a 2-wire serial bus.

This Ethernet optical fiber network card with independent intellectual property rights launched by Shenzhen Lianrui Electronics Co., Ltd. (LRES2026PF-SFP), this fiber optic NIC has a fully integrated ...

LR-LINK Networking Accessories include optical transceivers, DAC/AOC cables, fiber patch cords and server I/O cables. Compatible with 1G/10G/25G/40G/100G networks.

LR-LINK LRXP8510-X3ATL 10G SFP+ Multimode Ethernet Fiber Optic Module has 10Gb/s transceiver data transmission capability for 10Gb/s Ethernet, which is compliant with the IEEE 802.3ae standard ...
