

UNISTRUT Seismic Bracing Solutions contractors, Specifiers, and others. We have decades of experience with real-world applications in severe seismic zones, supplying world-class products and solutions. ...

An object of the present invention is to provide a seismic resistant cable tray which can prevent a cable tray from being damaged by buffering an impact at a connecting member between unit trays even if a ...

Although all of cable trays addressed by this paper are typical cable trays suspended on the ceiling, their length of sub beams and hanging rods as well as span of hanging rods may differ.

As with cable restraints, floor- or roof-mounted electrical distribution support systems will normally involve a box frame that supports the system (single or multiple runs) with some kind of a trapeze bar.

Guidelines are presented here for conducting in-plant seismic ruggedness review of conduit, cable trays, and their support systems. The in-plant review has two purposes.

After 15 years of accumulation, Vichnet has perfected the safety bearing system of cable tray, seismic bracing and combined hanger. As a result, we can provide professional solutions and ...

Learn how I approach Cable Trays Seismic Design to protect power and data in earthquake-prone areas. Understand key principles, methods, and applications.

We offer a pre-engineered, time-saving solution which braces and secures non-structural equipment within a building to minimise damage from earthquakes or seismic events.

The assembly connects the structure such as a beam or ceiling, to a brace member which could be cable, channel, or pipe to a non-structural support, such as pipe, trapeze, cable tray, duct, and more.

EAE Seismic Support Systems offer rigid solutions for installations that require earthquake protection. The seismic supports, which can be utilized in any type of installation, allows for quick and easy ...

It offers helpful video tutorials for our products, such as choosing the right material, the different types of, and working with cable tray, mesh and ladder, general strut use, and managing pipework with ...
