

Madagascar DAC High-Speed Cable OSFP

Discover the future of high-speed direct attach cables with insights on OSFP DAC in this concise guide.

Yes, the 1.6T DAC cable is designed to be backward compatible with 400G OSFP and 800G OSFP standards, ensuring seamless integration into existing network setups.

The 10G SFP+ RJ45 port optical module is a high-performance integrated duplex data link for bi-directional communication over copper cables. It is specifically designed for high-speed ...

Our Electronics Products Product of the Year award- winning OSFP (Octal Small Form Factor Pluggable) cable assemblies are compatible with 25G/lane channel NRZ up to 112G/lane ...

The Octal Small Form Factor Pluggable (OSFP) Connector System provides single- or dual-port, 8- or 16-lane I/O connectivity with DAC, AOC, ACC and optical modules for high-density switch applications.

High-speed Volex Direct Attach Copper (DAC) cables deliver reliable, energy-efficient data transfer for data centers. Customizable, tested and ready to deploy.

FS's Octal Small Form-factor Double Density Pluggable solution achieving 800G transmission (hereafter referred to as OSFP) is designed for high-density applications. The hot-pluggable transceiver ...

TE Connectivity's (TE) next-generation OSFP 224G copper cable assemblies are designed to meet the evolving needs of high-speed and high-density data centers and cloud computing environments.

Our OSFP Cable line-up is OSFP MSA compliant and protocol agnostic for worry-free integration into 200/400/800-Gigabit Ethernet and InfiniBand networks.
