

Multimode LED Module

850nm 1310nm 1550nm Multimode LED/ELED Light Source Laser Source are Light Emitting Diode (LED) based light sources with high stability reliability.

TL50 LED Tower Light: 3-Color Indicator, Voltage: 18-30 V dc or 24 V ac; Environmental Rating: IP67, Input: Bimodal; Colors: Green Yellow Red, Euro-4-Pin Integral Connector

An LED module light adopts a modular design with each module consisting of multiple individual LED chips mounted onto a circuit board, enclosed within a protective housing.

The Fiber Coupled Broadband LED Light Source is a powerful alternative to halogen light sources and is ideal for VIS/NIR spectroscopy applications such as protein characterization, oxygen monitoring in ...

OWL manufacturers a complete line of high-quality and accurate, yet affordable, multimode LED fiber optic light sources. These light sources can be bundled with an OWL optical power meter for ...

The 200 Class 70 mm ClearView™ LED Stacklight is a versatile, multi-mode signaling device that may contain up to five light modules, or four light modules and one sounder module in a single, integrated ...

Edwards Signaling 270LEDMW240A SMD Multi-Mode LED Module And Light Source White 240V AC. Buy it and Save at Globalindustrial .

Introducing the brand new LED light for our 17 ft barrier arms FAS-17FTBA and FAS-17FTBACW! Crafted from resilient silicone material, this powerful LED light can stand up to the toughest weather ...

Discover a wide range of LED modules for signs, advertising, and decorative lighting. Find waterproof options in various colors and brightness levels.
