you exciting activities, deals, local events, brand promotions, and other exciting ways to ...

Before the fiber optic cable plant can be installed, construction may be needed to provide the infrastructure in which the fiber optic cables will be installed.

Fiber optic cable sequential numbers are required at each pole location and vault wall. Sequential numbers will identify conduit length, and slack left in vaults and at poles.

** Fiber Optic Cables in the supply space (Rule 224A) will have the same required clearance to communication cables in the communication space as a multi-grounded neutral (Rule 235C)
