

Nordic Fiber Optic Sensor Equipment Manufacturer

MicroComp Nordic AB works with microwave and fiber optics. We represent different suppliers, design and build products and do consultancy work. Our target area is the Nordic (Sweden, Norway, ...

Explore 71 top manufacturers and suppliers of Fiber Optic Sensors in our comprehensive photonics buyers' guide. A fiber optic sensor is a device that uses optical fibers to detect and measure physical, ...

Medlemmer av Foss Fiber Optics-teamet i Slovakia deltok nylig på spesialisert opplæring hos 3M, med fokus på Expanded Beam Optical 3M(TM) EBO Optical Interconnect-løsningen.

Each product in our wide range of detectors, laser diodes, laser modules, optics, fiber optics, and more is worth every Crown (SEK). Our customized solutions cover all conceivable areas of application: ...

New areas of technology for the aerospace industry include new materials, new processes and new sensors. By supplying specialized fiber optic components and ...

The use of fiber technology is rapidly evolving, and at NORSAR, we leverage our extensive expertise in vibration detection and seismic monitoring to explore and develop applications beneficial to society.

Using the proven fiber optic technology, the Nortech system allows for direct, real-time, and long-term monitoring of power transformers, thus providing smarter dynamic substation and power grid ...

Our equipment is used to seal cereal boxes, and to complete life-saving medical procedures. Our reach is vast and our solutions are varied, but our quality never wavers.

New areas of technology for the aerospace industry include new materials, new processes and new sensors. By supplying specialized fiber optic components and technologies, Luna Innovations ...

Explore advanced fiber optic tools, custom assemblies, and expert support from NorthLab Photonics--your global partner in precision photonics innovation.
