

Norwegian Optical Cable Pre-stretched Suspension Clamp

In our factories in Norway and Slovakia, we produce systems based on high-quality optical connectors and cables. We manufacture data racks in aluminum and have a production line for CAT cables.

AFL's Mechanical Suspension installs easily while supporting vertical, transverse, longitudinal unbalanced loads and angle pulls without damaging the cable strands or affecting optical fiber ...

Company Introduction: NingBo Telecommunication Co; Ltd is a manufacturer of Cable tie, FTTH cable clamps, Fiber optical cable distribution boxes, terminal rosette boxies and stainless steel band.

ADSS Cable Suspension Grips are helical fittings used to support and suspend ADSS cables on poles, minimizing bending stress and protecting the cable in long-span or angled installations.

ADSS suspension clamp is a heavy duty, versatile, and reliable solution for securely suspending ADSS (All Dielectric Self-Support) aerial fiber optic cable. The versatility of the clamp allows the installer to ...

The Hubbell hanging aluminum ADSS suspension clamp is a heavy duty, versatile, and reliable solution for securely suspending ADSS (All Dielectric Self-Support) aerial fiber optic cable.

The fiber suspension clamp has a large contact area with the optical cable, uniform stress distribution, no stress concentration point, and at the same time enhances the rigidity of the optical cable at the ...

Intermediate suspension sets are used in situations where the cable is not to be strained and where the cable angle does not exceed 16°. The hole suspension set are made of galvanized steel. The loop in ...

Assembly with reinforced suspension clamp and neoprene inner covering, especially designed for OPGW cables. Includes grounding clamps for tower connection. Tension assemblies for suspension ...

The FIBERLIGN Suspension uses a combination of structural reinforcing rods (SRR), outer rods, housing halves, and resilient inserts to reduce compression, clamping, and bending stresses on ...

Intermediate suspension sets are used in situations where the cable is not to be strained and where the cable angle does not exceed 16°. The hole suspension ...
