

OEM Enterprise-Grade Optical Router 25G

This SFP28 transceiver allows you to connect a singlemode fiber optic cable to a 25 Gbps network router, server or switch. It transmits data up to 10 kilometers (6.2 miles) using a 1310 nm wavelength.

Cost and ROI Considerations Typical pricing for a commercial-grade 25G SFP28 SR module ranges from \$200 to \$400 per unit, with OEM modules on the higher end. Third-party options ...

25G independent gateway with multi-WAN load balancing, 12.5 Gbps IPS routing, and redundant hot-swap PSUs.

All Cisco® compatible 25G transceiver modules are certified for functionality, reliability and performance under rigorous testing parameters. Every 25G is RoHS and MSA compliant and built with Tier 1 ...

25G AOC's provides a cost effect solution for those same data center applications that require longer distance fixed length 1 to 10 meter interconnect using active optical Ethernet technology.

QNAP has multiple enterprise-grade high-performance 25GbE NAS (built-in and optional), assisting enterprises deploy high-speed storage centers or virtualization environments.

The SFP-10/25G-BXU-I transmits at a 1270nm wavelength and receives a 1330nm signal. The module requires RS-FEC on the host ports for full reach operation at 25G.

As 25G Ethernet becomes a key building block for modern data centers and enterprise networks, the SFP28 25G LR transceiver has emerged as a reliable solution for long-reach, high-speed optical ...

FibreCross provides a variety of customization options for 25G optical transceivers to meet your unique needs. You can adjust the wavelength, transmission distance, branding, and packaging according to ...

Our transceiver is built to meet or exceed OEM specifications and is guaranteed to be 100% compatible with Cisco®. It has been programmed, uniquely serialized, and tested for data-traffic and application ...
