

Optical Module Ethernet Switch

Managed and unmanaged Layer 2 and Layer 3 fiber optic Ethernet switches. With 10G SFP+ fiber optic transceiver modules, they meet your highest bandwidth demand.

OmniConverter Compact Ethernet Switches feature one or two uplink ports and up to eight 10/100/1000 RJ-45 ports, and are available as unmanaged or managed models. OmniConverter Compact ...

We offer solutions that provide seamless transmission and conversion from Ethernet media to multimode or singlemode fiber. Our Ethernet network switches with fiber ports comes in managed or ...

These switches exhibit exceptional versatility, supporting all fiber types, including multi-mode, single-mode, Plastic Optical Fiber (POF), and Hard Clad Silica (HCS) or Polymer Clad Fiber (PCF). This ...

Choose from our selection of fiber optic ethernet switches, including DIN-rail mount ethernet switches, light duty ethernet switches, and more. Same and Next Day Delivery.

Discover what an all-optical Ethernet switch is, how it works, and the key benefits it brings to modern networks, from higher bandwidth to lower latency.

We provide a full line of EtherXtra multi-channel Ethernet over coax (EoC) and Ethernet over UTP (Cat5) extenders, PoE media converters, IGMP multicasting industrial Ethernet switches for IP video ...

Up to 120km : Fiber transceiver provides multiple Gigabit SFP ...

Up to 120km : Fiber transceiver provides multiple Gigabit SFP optical ports and 10/100/1000M adaptive RJ45 network ports, users can choose different SFP optical modules ...

Ethernet control of optical switches is an ideal solution for larger optical switch applications. Our LXI Optical Switches are fiber optic multiplexers that use MEMS switching technology to ensure fast and ...

An all-optical Ethernet switch provides both optical uplink and downlink ports, and uses optical fibers that feature high transmission speed, large bandwidth, and strong anti-interference ...

Optical Module Ethernet Switch
