

OFS-GSF1DT16-20 series is a Layer 2 + Optical Ethernet switch with 1*1000Mbps Optical fiber ports and 16*10/100Mbps RJ45 ports. It is designed to meet the various application needs, and provide an ...

With the FOS-1000 series, OZ Optics now provides turnkey, rack-mountable optical switches with built-in electronics and color touch screen. The switch is offered in a 1x4 to 1x36 configuration. It can be ...

Optical Switch System LT1000 connect either single or dual fiberoptic channels to any N (up to 200) optical channels. They deliver excellent performance and high reliability. The LT1000 Series can be ...

Optical Switches are available at Mouser Electronics. Mouser offers inventory, pricing, & datasheets for Optical Switches.

FOS-1000 - Fiber Optic Switch from OZ Optics Ltd.. Get product specifications, Download the Datasheet, Request a Quote and get pricing for FOS-1000 on GoPhotonics.

The LT1000 Series of 1xN programmable switch systems connect either single or dual fiberoptic channels to any N (up to 200) optical channels. They deliver excellent performance and high reliability.

OFS-GSF1DT16-20 series is a Layer 2 + Optical Ethernet switch with 1*1000Mbps ...

Automatic switching function: When system monitoring optical power decrease of light path and exceed (under) the user setting switching threshold, the system will automatic switch from operating fiber to ...

The Fiber Optic Switch (FOS-1000-2) features a fast switching time, high repeatability, and a touch screen display for easy operation. It also has a wide range of available wavelengths and multiple ...

The NBX-1000 MEMS optical switch is designed for multiple fiber measurement. There are three model available for 1x8, 1x16 or 2x8 configurations. The balanced switching insertion loss for overall ...

What is the primary function of the NBX-1000 Series Optical Switch? The NBX-1000 enables automated switching between multiple optical fiber lines, allowing a single DFOS measurement device (e.g., ...

Optical Switch 1000
