

Paraguay DAC High-Speed Cable DML

High-speed Volex Direct Attach Copper (DAC) cables deliver reliable, energy-efficient data transfer for data centers. Customizable, tested and ready to deploy.

Lumulus Technologies Inc. meets this need with high-speed cables from 10GB to 1.6TB designed for low latency, top performance and energy efficiency to ensure your project runs smoothly.

Molex High-Speed DAC Assemblies deliver a complete zSFP+and zQSFP+interconnect solution across multiple industry standards with data rates as high as 100 Gbps and off-the-shelf and custom lengths

The SFP+ passive cable assembly is an upgraded version of small pluggable (SFP) interconnections up to 10Gbps. The system complies with the SFF (SFF-8431 and SFF-8432) specifications and supports ...

The same 200G, 400G and 800G PAM4 connectors used in these cable assemblies are also available as transceivers. Typical applications include data centers requiring reliable, low latency, high-quality ...

The Amphenol SFP-DD products offer an ultra-high-performance, cost-effective solution for 100G aggregate speed applications in switches, ...

The Amphenol SFP-DD products offer an ultra-high-performance, cost-effective solution for 100G aggregate speed applications in switches, routers, data storage arrays, and high ...

Empower your data center and network infrastructure with cutting-edge copper cable assemblies for unmatched performance and reliability.

These passive cables provide a cost-effective solution for interconnecting high speed 100 GbE switches and servers. This high speed data transport capability is ideal as server virtualization becomes more ...

Unlock 100G performance with BizLink"s DAC cables. Our direct attach cable solutions, including QSFP28, ensure low loss & high-speed data for demanding data centers.

Philisun team helps you select the most suitable AOC and DAC high speed cables for data centers, HPC, and AI deployments, delivering reliable performance, broad compatibility, and scalable ...
