

Polish Certified OSFP Optical Module 1G

We offer optical modules supporting speeds from 1G to 400G, ideal for expanding network infrastructure in data centres and telecom operators. Find out how easy it is to connect equipment from different ...

Get high-speed 800G modules for QSFP-DD or OSFP ports for AI and data center applications.

1G SFP EX 40km 1310nm o Supports data rates of 1.25Gb/s o Compliant with SFP MSA o Hot-pluggable SFP footprint

1G SFP optical modules supporting SX, LX, EX and ZX for gigabit Ethernet and enterprise networking applications.

By partnering with tier-1 optical component manufacturers, we ensure every module meets the highest industry standards. Each transceiver undergoes rigorous testing and comes supported by a Limited ...

Fully compliant with OSFP MSA standards, our 1.6T modules are designed for high-performance applications in Ethernet networks, data centers, and cloud infrastructures.

The OSFP module contains a PCB with contact pads (i.e., module PC board; paddle card) that mate with a connector as specified in section 5.10 of this document. Critical dimensions for the contact ...

Browse Smartoptics optical transceivers with flexible search and filtering options across a range of bit rates, form factors, media types, and protocols for all your network needs.

Our multi-coded transceivers support all major form factors and speeds, including SFP, QSFP, and OSFP, with data rates from 1G to 800G. Ideal for data centers, telecommunications, and more, our ...

1G SFP optical transceiver modules for multi-mode and single-mode in distances ranging from 300 meters up to 80km with a limited lifetime warranty.

Arista offers customers a wide variety of optical and copper connectivity options for datacenter and high-performance computing environments. Connectivity options include SFP/SFP+ solutions for 1G, 10G ...
