

Power Telemetry Optical Cable Manufacturer

Precision Power Cable Assemblies are designed to provide reliable connectivity between Precision FTTx UPS and Optical Network Terminals (ONT).

We provide solutions and equipment for optical glass making, fiber drawing, fiber coating, ribbon making, proof testing and fiber optic cable production. Our technology is used to produce telecom preforms, ...

INFIBRA TECHNOLOGIES is engaged in designing and manufacturing of next-generation fiber optic sensors systems, providing monitoring solutions based on FBG, Raman, Brillouin and Rayleigh ...

Luna fiber optic sensing and measurement systems help design, build and maintain products and processes for aerospace, energy, and more. Explore solutions now.

By embedding fiber within the cable jacket or installing it in the same trench, our power line and cable monitoring system turns kilometers of cable into thousands of virtual microphones and thermometers. ...

This UV and UL approved Indoor/Outdoor cable works with all of our Precision Power products, along with other competitor brands. It is also a direct replacement for the Calix Type II Telemetry Cable.

AP Sensing's fiber optic sensor cables enable real-time, precise monitoring of temperature, strain & acoustics in harsh environments with minimal maintenance.

PTspeed, located in San Jose, CA, is a distributor and manufacturer specializing in a range of cables including Ethernet, fiber optic, machine vision, power, HDMI, and high-density data ...

OWL manufactures a complete line of fiber optic test equipment for a wide range of applications, including telco, WAN, MAN, LAN, SAN, CATV, IT, manufacturing, and laboratory.
