

# Pre-twisted tension clamps for ADSS optical cables

ADSS medium/long span tension-resistant clamps for medium-span and long-span ADSS optical cables. Pre-twisted tension-resistant clamps for optical cables include inner and outer double layers of pre ...

ZION Communication focuses on optical fiber cable hardware products, offering FTTH and ADSS series solutions--including stainless steel, nylon, and composite flat cable drop clamps, tension clamps, ...

Meet our Pre-twisted Tension Clamp for ADSS, the perfect tool for connecting terminal support, tension support splice support, and supports of angles greater than 25°;.

ADSS Cable Suspension Clamp Features High grip strength, the cable pre twisted tension clamp used for power transmission circuits has a grip strength of 95%, and the calculated breaking force of the ...

ADSS suspension clamp is a heavy duty, versatile, and reliable solution for securely suspending ADSS (All Dielectric Self-Support) aerial fiber optic cable. The versatility of the clamp allows the installer to ...

damping effect for ADSS cables. The pre-twisted tension set itself will not lead to harmful stress concentration, which may ensure normal operation of the optical cables.

The special design of Preformed rods makes ensure that Tension Clamps can't cause undue stress to the ADSS cables, so as to ensure the normal lifetime of cables system.

Explore Gcabling's tension clamp kit for ADSS fiber cable and drop cable installation--includes stainless steel band, buckle, fixing accessories, and hand-guided tools.

The Pre Twisted Suspension Clamp is a specialized hardware component designed for overhead power transmission and ADSS fiber cable. It is engineered to securely hold and support pre-twisted ...

The latest adss optical cable tension clamp in 25 years is specially designed for 100m pitches. it adopts high-strength pre-twisted wire structure and has a tensile strength of 36kn. it is ...
