

Purchase 1 6T industrial switches

The IE 1000 is ideal for industrial Ethernet applications where small and easy-to-be-managed hardened products are required, including factory automation, intelligent transportation ...

Ruijie offers next-generation industrial Ethernet switches designed for harsh industrial environments, providing flexible full-gigabit access as well as 10GE uplink ports, and supporting a wide operating ...

We offer a comprehensive portfolio of data center switches that can help you implement back-end and front-end networks that meet the demands of artificial intelligence (AI) and traditional workloads.

The Edgecore AIS1600-64O is a 64-port 1.6T AI switch powered by Broadcom Tomahawk 6. Delivering 102.4 Tbps capacity and sub-microsecond latency, it eliminates bandwidth bottlenecks for next-gen ...

Featuring state-of-the-art Broadcom chipsets, these switches offer capacities ranging from 200G to 1.6T. Integrated into GIGAPOD cluster computing platforms, the joint display highlights ...

Celestica DS6001 is a next-generation ultra-high-density 1.6T OSFP224 switch developed for advanced data center and AI infrastructures that require extreme bandwidth, efficient scaling, and high ...

To meet the even more demanding cooling challenges of tomorrow, Alpha Networks' 1.6T liquid-cooled switch will not only help customers deploy infrastructure with even higher performance ...

"The introduction of our new 1.6T switches marks a significant milestone for Celestica and our customers. The DS6000 and DS6001 represent a new era in high-performance networking, ...

As a worldwide provider of high-performance network products and solutions, FS offers switches, optical transceivers, cabling systems, and management software for AI clusters, data centers, and ...

The arrival of 224Gbps/lane marks a significant advancement in enabling 1.6T networks. In this new ecosystem, OSFP1.6T has emerged as a leading standard to drive the development of 1.6T ...
