

Ruggedcom optical switch

The versatility and wide selection of fiber optics allows the RS900 to be used in a variety of applications. The RS900 provides up to three 100Mbps fiber optical Ethernet ports for creating a fiber optical ...

RUGGEDCOM RS900GP - 6GK6090 is a utility grade, fully managed Ethernet switch providing dual fiber optical or copper Gigabit Ethernet ports and eight Fast Ethernet copper ports each capable of ...

ROSTM contains features that optimize network performance and simplify switch management based on the unique requirements found in SCADA and industrial automation applications.

The RuggedSwitch™ RS900G is an industrially hardened, fully managed Ethernet switch providing dual fiber optical Gigabit Ethernet ports and eight Fast Ethernet copper ports.

Long-haul fiber optics with high bandwidth, high port density, and cybersecurity features in RUGGEDCOM switches make them well-suited for industrial networks with an increasing number of ...

Compact, rugged 10 Gigabit Layer 2 switches with high port density. Delivers reliable, high-bandwidth connectivity for critical infrastructure in harsh environments.

Connecting devices in multimodal transportation networks is made easy with the RUGGEDCOM RSG920P, a multipurpose switch that offers a tremendous amount of flexibility in a standard ...

RUGGEDCOM RS8000 Series - 6GK6080-0AS2 provides substation hardened, fully managed, Ethernet switches specifically designed to operate reliably in electrically and environmentally harsh environments

The RUGGEDCOM RS900G is a 10-port utility-grade, fully managed Ethernet switch, providing dual fiber optical Gigabit Ethernet ports and eight fast Ethernet copper ports.

Use the RUGGEDCOM RSG920P to reduce cabling costs and simplify camera, radio and peripheral device connectivity with this rugged, high density, compact form-factor Layer 2 switch without ...
