

Small volume optical power meter OEM

VIAVI offers fast, cost-effective, and easy-to-use power meters for installation and maintenance of single mode and multimode fiber optic networks and advanced, photonic-layer power meters for lab and ...

Works perfectly with our Huawei MA5800 OLT, providing accurate power measurements. Super easy to use in the field!

All OWL fiber optic power meters can be bundled with multimode and/or singlemode light sources for complete optical loss measurement. For more information or for assistance in choosing the right ...

Our handheld optical power and energy meters are plug and play compatible with our wide range of calibrated optical sensors for the highly accurate and repeatable optical measurements required in ...

The OPM150 is small enough to fit into your pocket and is USB powered and controlled. No extra power supply required, no extra cables on the table. Not only the small size qualifies this instrument for ...

Optical multiport power meter with 2 or 4 channels, analog outputs for linear or logarithmic feedback, and option to extend the wavelength range down to 800 nm. Offers fast power range switching and ...

Santec offers a comprehensive range of Optical Power Meters designed to meet diverse testing requirements in fiber optic applications.

High-performance OEM power meter in optical fiber with 4-inch HD LCD and versatile connectivity options, suitable for various industrial applications.

The POM-500 series of pocket optical power meters is also offered as a series of OEM modules (with no built-in display) that can be embedded in a system for remote power monitoring or for long term ...

PM420X optical power meter has small volume and wide power measurement range. It is widely used for optical transceiver module development and production to measure the average optical power.
