

We provide world's paper industry with advance laboratory instruments for quality control. To be nearer to customers in Asia, PTA Asia, our regional office was established in Singapore on February 2014.

Although only fluorescent compounds can be detected by a fluorescence detector, non-fluorescent compounds can be detected by using a derivatization method that can be converted into fluorescent ...

When combined with intuitive software, the RF-6000 spectrofluorometer is ideal for a wide range of applications, from routine analysis to research and development, in ...

Emerging markets within Asia Pacific, including India, Southeast Asia, and Oceania, are poised for rapid adoption of EEM fluorescence spectrometers due to growing industrialization, rising...

When combined with intuitive software, the RF-6000 spectrofluorometer is ideal for a wide range of applications, from routine analysis to research and development, in such areas as pharmaceuticals, ...

Enhanced sensitivity and dynamic range enable fluorescence as well as bioluminescence, chemiluminescence, and electro-luminescence measurements. High-speed 3D scanning enables ...

Asia-Pacific, particularly China, leads the global Fluorescence Spectroscopy market, with robust domestic demand, supportive policies, and a strong manufacturing base.

This report focus on Southeast Asia and regional market, providing information on major players like manufacturers, suppliers, distributors, traders, customers, investors and etc., major types, major ...

Featuring solutions for fluorescence spectroscopy, particle analysis, atomic force microscopy (AFM), Raman and X-Ray fluorescence and dedicated accessories, HORIBA can help you to characterize ...

High quality assurance: using Hamamatsu's high quality Xenon light source and photoelectric multiplier tube detectors and instruments to provide sufficient light intensity signal and the detection sensitivity.

Through the statistical analysis, the report depicts the global and Southeast Asia total market of Fluorescence analyzer industry including capacity, production, production value, cost/profit, ...
