

Special optical cable with 8 cores manufactured in Germany

Optical fibers & cables, highest manufacturing quality, tailored to your requirements, special and individual productions up to high volume series.

In Germany, there are many excellent fiber optic cable manufacturers that specialize in manufacturing and supplying various optical cables suitable for different environmental applications.

The multi-functional capabilities of manufacturing fibre optics were paired with special compounds to produce Tratos" low smoke, zero halogen optical cable, a cable of exceptionally high performance.

The company fiberware GmbH, based in Mittweida, Saxony, has established itself as a world-leading manufacturer of special optical fibers, special cables, fiber-optic sensors, fiber bundles and capillaries ...

FOS Inon Optics has always manufactured sophisticated, custom-specific fiber optic cables for sectors such as power plants, fiber-optic flame detection, spectroscopy and microscopy, quality control, UV ...

HES 8 Core Single Tube Steel Armored Fiber Optic Cable, OM4 50/125µ MultiMode. Offers reliable and high-performance data transmission.

The optical fibre is made of high pure silica and germanium doped silica. UV curable acrylate material is applied over fibre cladding as optical fibre primary protective coating.

For more than 60 years, we produce special cables which are optimized for several applications for our customers in the electrical and electronics industry, for telecommunications ...

The headquarters of the ISO 9001 certified company is located in Jena, Germany, the center for pioneering research and development of optical fibers for the photonics industry.

The company specializes in fiber optic cable manufacturing and professional cabling for data centers, offering a comprehensive range of components, including splice boxes, fiber optic switches, and ...
