

# Supplier coherent optical module 800G

Get the pluggable module performance you need from the manufacturer of choice for all major networking equipment vendors worldwide.

Cisco QSFP-DD and OSFP 800G coherent optical modules are supported on Cisco switches and routers. For more details, refer to the [Cisco Transceiver Modules Compatibility Matrix](#).

800G OSFP ZR+ Pro Transceiver is a high performance, high output power, cost effective pluggable DCO module compatible with various switches and routers for optical data communication applications.

Housed in industry-standard QSFP-DD and OSFP modules, these transceivers leverage Lumentum's state-of-the-art hybrid photonic integrated circuit technology, which combines indium phosphide and ...

Coherent 800G Transceiver Modules transform networks for future connectivity, serving as a vital component for AI/ML, InfiniBand, and Ethernet applications. The Coherent 800G Modules are ...

Coherent's 800G transceiver portfolio offers multiple form factor options in both OSFP and QSFP-DD, addressing applications from short-reach data center interconnects to long-haul coherent transmission.

The transceivers feature a high output power and digital coherent optics (DCO), which plug directly into QSFP-DD and OSFP slots on IP routers. The Coherent 800G ZR/ZR+ Transceivers ...

The 800G Digital Coherent Optics (DCO) family of transceivers are available in two small form-factors, QSFP-DD and OSFP, which enable them to plug directly into routers/switches for IP-over-DWDM.

The 800G CFP2-DCO coherent optical transceiver module is a cutting-edge solution designed for high-capacity, long-haul, and metro optical networks. Built in the compact CFP2 form factor, it integrates ...

Lumentum 800ZR+ transceivers serve a wide range of applications, from DCI to metro and regional networks, thanks to their ability to interface directly with routers.
