

Supply of Explosion-proof and Corrosion-resistant Distribution Boxes in Croatia

Inatex is pleased to announce the release of the HRT97 Series IECEx explosion-proof LED floodlight, a high-performance hazardous area lighting solution designed for demanding industrial environments.

Power Distribution panel box - Hazardous locations for explosive gas mixtures: Zone 1 and Zone 2. Explosive gas mixtures: Class IIA, IIB, and IIC.

Constructed from corrosion-resistant, copper-free aluminum, the GUB series terminal boxes and junction boxes are available in a variety of sizes and configurations to suit different installation needs.

These are available in a range of materials including Stainless Steel, GRP & Sheet Steel from IP42 (Indoor) to IP 66 (Outdoor) Applications.

Engineered for extreme environments, our explosion-proof distribution box features: Military-Grade Enclosure - Heavy-duty cast aluminum/stainless steel construction resists corrosion and impacts.

Flameproof and explosion proof, these power overhaul distribution boxes are suitable for use in hazardous areas. Main switch: Maximum current is 180A. Branch circuit: Maximum current is 63A. ...

Order Explosion Proof Illumination Distribution Boxes from Warom Technology, a trusted manufacturer and supplier, designed for industrial lighting automation, hazardous electrical systems, nuclear ...

BARTEC offers one of the most extensive ranges of explosion-proof and substance-resistant components, devices, and systems for controlling, switching, and connecting for hazardous areas ...

Durable Hexlon Explosion Proof Distribution Boxes and Electrical Enclosures, IECEx and ATEX certified for Zone 1 and Zone 2.

When designing power distribution panels for lighting systems, heat tracing, or overall machinery, there is more than one option to choose from. If installing in a Class I, II Division 2 or Zone 1 for USA or ...
