

Swiss Active Optical Module 25G

SFP28 modules provide high-performance network connectivity in a compact form factor. With data transmission speeds of up to 25 Gbps, these modules are ideal for demanding environments such as ...

Cisco SFP28 to SFP28 Active Optical Cables are direct-attach fiber assemblies with SFP connectors. They are suitable for very short distances and offer a cost-effective way to connect within ...

For short reach applications, these devices are used with VCSELs and Photodectors for optical transmission over multimode fiber. Typical reach of these applications is up to 300 meters. For long ...

QSFPTEK offers a 25G SFP28 high-performance Active Optical Cables integrated cable that can provide an ideal alternative solution for high-speed cables and short-distance SFP28 optical modules.

Optimized for data rates up to 28.0 Gbps per SFP28 channel in 25GBASE-SR1 (Short-Range Multimode) and 25GBASE-LR1 (Long-Range Single Mode) variants. Our 25-Gigabit Ethernet SFP28 ...

Broadex Technologies" high performance and cost effective 25G Optical Transceiver Modules are built utilizing our innovative SiPh and COB technology. These reliable and robust SFP28 modules support ...

Amphenol"s 25G SFP28 optical modules include AOC series, which are compatible with IEEE802.3by and IEEE802.3cc. They are compliant with SFP28 MSA, SFF-8431 and SFF-8432, it is ...

FS 25G SFP28 optical transceiver solutions offer a wide variety of high-density and low-power connectivity options for 25 Gigabit Ethernet, telecom, and data center.

These 25G SFP28 assemblies are capable of transmitting data up to 25Gb/s, offering an easy installation with a flexible, multimode fiber cable.

The 25G SFP28 transceiver supports data rates from 24.33Gb/s to 25.78Gb/s over distances up to 10km on single-mode fiber. This module integrates a DFB laser and PIN-TIA receiver, enhanced with built ...
