

Taiwan Bissau New Fiber Optic Sensor Company

Leading developer of fiber optic temperature sensing and partial discharge monitoring solutions for switchgear, data centers, energy, and life sciences, ...

The company designs and manufactures controllers for touch sensor displays and offers CMOS image sensors and 3D sensing solutions for various applications, including medical devices and security ...

With over 20 years of experience, we deliver innovative, custom-built devices and components that empower advancements in science, industry, and healthcare. Trusted by leaders in medicine, ...

Leading developer of fiber optic temperature sensing and partial discharge monitoring solutions for switchgear, data centers, energy, and life sciences, delivering critical insights for electrical ...

Is a professional Fiber Optics Sensor / Photo Proximity Capacity manufacturer Taiwan. We has been committed to offering the highest quality and best products solving our customers" needs for ...

photoelectric sensors including fiber sensors, displacement sensors, vision sensors, LED lightings for machine vision, non-contact thermometers and accessories for sensors.

Through the transfer of foreign technologies, UFOC has actively engaged in the manufacturing of optical cables and fiber optic transmission systems, becoming the first qualified professional supplier of ...

The company says it has opened offices in Oman and Taiwan to help bring its products to market -- and has added two senior tech industry leaders to its management team.

The "Taiwan All Fiber Optic Current Sensor (AFOCS) market" is anticipated to experience significant growth, with a projected CAGR of 6.3% from 2026 to 2033.
