

Universal Single-Fiber Single-Mode Optical Modules

Ubiquiti Networks offers a variety of U Fiber(TM) modules and single-mode fiber cabling for your new installs and existing infrastructure upgrades.

In this guide, you will learn what a single mode SFP transceiver is, how it works, the key specifications and types available, and where it is commonly used.

Plug & Play(TM) universal systems modules are used to break out the 12-fibre ...

Ubiquiti Networks offers a variety of U Fiber modules to suit your fiber connectivity applications.

Complete your network installation with this 25G Single-Mode SFP28 Optical Module from Ubiquiti Networks. Featuring duplex LC connectors and 1310nm TX and RX wavelength, this SFP28 optical ...

SFP28 transceiver that supports 25G connections up to 10 km using single-mode fiber with a duplex LC UPC connector.

Plug & Play(TM) universal systems modules are used to break out the 12-fibre MTP connectors on trunk cables into LC or SC duplex connectors to facilitate patching into system equipment ports, patch ...

datasheet is intended to guide the user through the various options available when choosing an optic module for a given platform depending on the architecture. The following table lists the different ...

Single fiber QSFP28 modules (commonly called BiDi transceivers) enable full-duplex 100G communication over a single optical strand. They do this by using Wavelength Division ...

Discover high-performance single mode SFP modules for your network. Compatible with major brands like Cisco, Ubiquiti, and more.
