

WDM Optical Transport Network Layered Architecture

It shows how collapsing functions into a converged architecture reduces duplication and improves service visibility across IP and optical layers. Routed Optical Networking architecture ...

In this pa-per we address for the first time an SDN-enabled multi-domain multi-layer (WDM/SDM) control architecture for partial disaggregated optical networks.

Summary This document provides a tutorial for Optical Transport Network standards and their applications. The objective is to provide the telecommunications engineers with a document that ...
