

Warranty for SFP optical modules NRZ

If you already own an FS 100G optical transceiver module, it comes with the same 5-year warranty as top brands, along with a 30-day return and exchange policy, ensuring you the most reliable after ...

High-speed electrical and optical specifications are compliant with ANSI Fibre Channel FC-PI-7. The AFCT-57H5MZ is a multirate 1310-nm transceiver that ensures compliance with FC-PI-7 64GFC, ...

Ships in 10 days from order date. The QSFP-10000-DR1 is a single lambda short reach single-mode 100G QSFP28 optical module transceiver compatible with the 100GBase-DR1 specifications. It uses ...

The SCORPION flexible media platform is capable of housing a series of QSFP and SFP interfaces to facilitate access and trunking connectivity regardless if the required medium is video, optical video, ...

Cisco SFP-50G-SL Short Link Modules are a replacement for traditional AOCs (Active Optical Cables). They are suitable for very short distances and offer a cost-effective way to connect within a rack and ...

Effective September 7, 2020, Cisco is offering a 5-year limited hardware warranty on Cisco's pluggable modules of SFPFE, SFPOCX, SFPGE, SFP10G, X2, SFP25G, QSFP40G, QSFP100, and QDD400G ...

10GbE SFP+ optical transceivers include short-reach (SR), long-reach (LR) and extended long-reach (ER and ZR). The 10GbE SFP+ receptacle will also recognize 1GbE SFP transceivers. A 10Gbase-T ...

The Arista pluggables and cables include a one-year limited hardware warranty, which covers parts, repair, or replacement with a 10 business day turn-around after the unit is received.

These products feature four channels of 25G NRZ electrical signals and four channels of 25G NRZ optical signals, a MTP/MPO connector, a distance of up to 10km reach via single-mode fiber, a case ...

From SFP and QSFP to today's QSFP-DD and OSFP form factors, MSA specifications define how optical modules are mechanically, electrically, and logically designed--ensuring that products from ...

SFP (Small Form-factor Pluggable) is a compact, hot-pluggable network interface module used to connect network devices (switches, routers, firewalls) to fiber optic or copper cables.

Discover OEM-compatible 50G SFP56 transceivers with NRZ backward compatibility. Ideal for Cisco networks, these optics support cost-effective 10G/25G to 50G upgrades with short ...
