

Which company is best at building cold aisle computer rooms

Hot and cold aisle containment systems made from Faztek's aluminum extrusion profiles are not only flexible but fully scalable allowing your containment system to grow as you do.

Systems provide solutions for airflow management in datacenters and mission critical facilities by isolating cold or hot aisles to increase cooling efficiency and reduce energy usage and costly downtime.

Upsite AisleLok containment solutions and portfolio of aisle airflow management products are designed to improve cooling effectiveness and efficiency by enhancing airflow management. Separates supply ...

In addition to our standard product line, we engineer and build bespoke solutions to overcome unique obstacles or constraints present in any data-center environment. Whether implementing hot-aisle or ...

Our team can perform an assessment that recommends the containment option best suited to increase cooling capability, enable lower air handler fan speeds to save significant cooling costs, and improve ...

Following a collaborative, customer-driven approach, we provide the best containment options for each project. Whether ceiling hung or integrated with aisle structure, our containment solutions are ...

We provide the best solution to eliminate hot and cold air from mixing between aisles regardless of rack configuration and other design challenges. Whether it's live environment or new construction, ...

AZE's hot and cold aisle containment systems are your solution. They separate cold air being supplied to your equipment from hot equipment exhaust air and enable greater cooling efficiency from data ...

Cool Shield(TM) products provide customers with versatile, turnkey aisle containment systems for new or existing critical spaces. Our offerings range from a single row in a server room to entire data center ...

We manufacture fully customized racks designed to support cold aisle solutions that align with your airflow requirements and energy efficiency goals. With NexGen's precision manufacturing, you'll have ...
